## Beacon Staff Elects Board

Kasper, Fine, Churchill, Basing and Horvitz to Hold Office

The executive staff of the Beacon met last Monday evening and elected the members of the Associated Press staff. The key position, that of editor, was awarded to Harry Fine. The associate staff at the present time consists of Hyman Fine, editor; Arthur Churchill, associate editor; Dorothy Kasper, news editor; Milton Basing, sports editor; and Hyman Horvitz, executive editor. One member of the board has considerable experience in writing with the Beacon. Miss Basing has been very active for the past year in the editorial department of the Beacon. Mr. Churchill has been one of the regular contributors to the news column since his freshman year. Mr. Fine, who at last year's Prosh. Beacon, has been active in the news, feature and editorial departments of the Beacon for the past year and a half. The sports editor, a position usually held by a Junior, speaks for the ability of Milton Basing. Mr. Basing has proven himself very capable in journalistic work during the past year.

## R. I. Debaters Lose to Conn.

Crippled Men's Team Offers Strong Opposition to Opponents

Rhode Island debaters suffered their second defeat of the season last Thursday evening when they lost a decision debate to Conn. The team, coached by Fred Rockefeller, upheld the negative on the question: Resolved That the Allied War Debts Should be Cancelled. The debaters representing Rhode Island were handicapped considerably by unfortunate circumstances. At the last few hours, one of the debaters, Hyman Fine, developed a severe case of laryngitis and was unable to speak. In his place Harry J. Prebluda was substituted. The team then consisted of Henry J. Pickersgill, Melvin Kippie, and Harry J. Prebluda. The topic of debate proved to be of great interest to the audience. Many interesting and original ideas were brought out in the debaters' controversy. At the same time, the Rhode Island debaters had the opportunity to gain much experience from the Argles. Henry Pickersgill, the first speaker for the negative, clearly illustrated that it was the wrong principle to cancel the allied war debts. At the same time he successfully refuted all of the arguments that the first affirmative speaker brought forth. The second speaker of the negative was (Continued on Page 4)

## Freshman Banquet

The Freshman banquet has been planned this year for May 7, 1932, at 7:30 p. m. in Lippitt Hall, according to "Red" Fisher, chairman of the banquet committee. This committee has been working hard and has arranged for an interesting evening for the Fresh. Patrons, patronesses and speakers have been chosen, with "Stan" Smith, president of class, acting as toastmaster and introducing the main speakers, principally President Bressler, Dean Barlow, (Continued on Page 4)

## Curriculum for All Courses Completely Revised; Plans Completed for Pre-Med and Physical Training Courses

It Is Expected About Nine New Members Will Be Added to Teaching Staff; Courses Will Feature Eighteen or Nineteen Hours Each Semester

### Uses of Delta Zeta Discussed

Prominent Students Give Similar Opinions

Following the article "New Use Had For Delta Zeta Lodge" published in last week's Beacon, much comment has been heard on the campus about to what use the lodge could be put. Because the Beacon has already proposed a use for this building, it has undertaken questioning some of the leaders of the student body on this subject. Those interviewed this week are Harry Gill, president of the Student Council, and George H. M. Lawrence, former editor of the Beacon.

Harry Gill, president of the Student Council, made the following statement: "In my opinion, the Delta Zeta Lodge should not be used by any single organization unless that organization has some option over it, that is, a lease, or a purchase of the same. Other than that, it should be used as a general meeting room thereby benefiting the greatest number of students."

George Lawrence, former editor of the Beacon, has the following opinion: "Any use for which the former Delta Zeta Lodge may be made should serve for the benefit of the greatest number of student on the campus. This seems most logical to me and its use as an organization." (Continued on Page 4)

## Brown Univ. Bows To Rhody, 42-31

Rams Halt Bears' Late Rally; Cox, Tyler Star

Rhode Island State successfully closed their basketball season when they defeated Brown 42-31 at the Elm Grove Avenue gym last Wednesday night.

The Rams encountered their only difficulty when they were forced to stop a late Brown rally. After Rhody had piled up a 29-18 lead, the Bears came within two points of tying the score with only eight minutes left to play, but were unable to force out in front.

Rhode Island completely dominated the play in the first half, building up a 19-13 lead at the end of that period. With the advent of the next half the Rams ran the score up to 26 points before the Bears could tally any counters. It was then that Brown's rally, with Caulkins and Mantell leading the attack, fell short of tying the score by one basket.

Eddie Cox and Captain Johnny Tyler were high scorers for the Rams with 15 and 11 points respectively, while Caulkins and Mantell were high men for Brown.

This was Tyler's last basketball game for Rhody. For three years he has been a regular on the varsity, starring at center and guard. He will be the only man lost through graduation. Although there are many to take his place, Coach Keaneey will miss him in future lineups.

The summary:

Rhode Island State (42)	G.	F.	P.
Cox, If	4	7	15
Kilroy, rf	1	2	4
Sanborn, rf	1	0	2
Golden, rf	0	0	0
Horseman, c	2	0	4
J. Tyler, lg	5	1	11

(Continued on Page 2)

During the past week arrangements have been completed to change the curriculum for the various schools. This represents one of the greatest changes in the history of the college. Among the outstanding changes are the initiation of a nineteen or eighteen credit course, a thorough pre-medical course, a physical training course, and several agricultural courses. It is expected that the new courses of study will start next September. Although it is rather doubtful whether they will affect the students who are now enrolled.

It is also expected that there will be about nine new members of the faculty next year, of which four will be in engineering, one in English, one in bacteriology, one in Government, one in Botany, and one in Psychology and Education. Due to the lack of space in this issue the detailed curriculum in Home Economics, Engineering and Agriculture will be included in the next issue of the Beacon.

The new courses in School of Science and Business Administration are as follows:

<b>Geology</b>	
Petrology	2 (1)
Historical Geology	2 (1)
<b>Zoology</b>	
General Biology (2nd)	1 (2)
Comparative Anatomy (1st and 2nd semester)	
(Takes place of Zoo. 1)	
Evolution (1st semester)	3
Physiology (2nd semester)	2 (1)
Advanced Anatomy	(3)
Economic Entomology as required for courses in Agriculture	
Histological Technique	3
<b>Chemistry</b>	
Colloidal Chemistry (1st semester)	(2)
Chemical Engineering (1st semester)	(3)
Chem. of Industry (1st semester)	3
Chem. of Ind. (cont.) (2nd semester)	3
<b>Bacteriology</b>	
Immunology and Serology	(3)
Pathogenic Bacteriology	(3)
Systematic Bact. (1st semester)	(3)
Seminar in Bact. (2nd semester)	1 or 6
Research in Bact. (1st and 2nd semester)	1 to 6
<b>Modern Language</b>	
French, alternate years with 4	
German, alternate years with 3	
Spanish, alternate years with 3	
<b>Art</b>	
History of Architecture (1st semester)	3
Poster Making (2nd semester)	(1)-(3)
<b>Other new courses:</b>	
<b>Education</b>	
<b>First Semester</b>	
Educ. 3 Educational Psychology	3
Educ. 6 Educational Sociology	3
Educ. 7 Psychology	3
Educ. 20 Collegiate Education	3
Educ. 21 Intro. to Philosophy	3
Educ. 22 History of Philosophy	3
Educ. 23 Foundation of Science	3
Educ. 31 Educational Dramatics	3
<b>Second Semester</b>

English 3 Exposition	3
English 5 Argument & Debate	3
English 13 Technical Journal	3
English 21 American Literature	3
English 33 History of Drama	3

(Continued on Page 3)

## Baseball Season Starts at Rhody

Martynik and Carr Out for Team

Coach Keaneey has started the baseball season a-rolling. Both varsity and Freshmen candidates are hard at work in the gym every day. Thus far, the coach is content upon getting his players in shape for the coming season. Batting practice, base-running and a little pitching now and then, is the program until the warm weather starts.

The loss of Cragan, Flaherty and Pray of last year's varsity will have to be taken care of by the coach. The present squad will be made up of eight regulars of last year's team, provided, of course, that they can hold their former positions.

The University of Maine, Brown, Northeastern and Connecticut will be a few of the major games on the State schedule for the year.

Martynik, Golden, Sanborn, Carr and Deming are at present busying themselves with the pitching duties.

Practically the entire Freshman basketball squad is out for baseball. "Happy" Appdin, the Freshmen's elongated basketball center, is being groomed as a probable pitcher. "Happy" has had some baseball experience with the leading amateur teams of this state.

## ATF Purchases Beta Phi House

Announcement Comes as Surprise at Banquet; Cost About \$8500

Alpha Tau Gamma, youngest of the eleven fraternities on the campus, announced their purchase of the Beta Phi house, during the course of the fourth annual Alpha Tau banquet, held this year on March 12, in the new Stowell dining hall. The purchasing price was reported as being around \$8,500. Members of the rapidly maturing fraternity will move into their new quarters when the college opens in September, at which time it is expected that the Beta Phi group will also occupy a strange dwelling. Beta Phi, situated east of Edwards Hall, has the distinction of being the first fraternity at Rhode Island State College, and was built in 1913. It has eight study rooms, seven rooms for sleeping quarters, and two social rooms.

Albert Carloti of Providence, president of Alpha Tau, served as toastmaster at the banquet, and in this capacity announced the purchase. Speakers who lauded the society for its growth included President Raymond G. Bressler, Vice President John Barlow, Prof. Joseph W. Ince, faculty advisor, Dr. Theodore Odland and Prof. Kenneth Wright.

Approximately fifty active and alumni members attended the banquet and a goodly number of these could be heard to assert their keen enjoyment of the affair, long after discussion should have been taboo. Those new members in whose honor the event was given include Richard Colwell, Robert Hamilton and Raymond Tabidoux, all of Woonsocket. Isaiah Turner, Providence; Arthur Dawson of Wick-

(Continued on Page 3)

## Pan-Hellenic To Hold Annual Dance

C. Regan Chairman of Co-Ed Affair to Be Held This Saturday Night

The annual Pan-Hellenic dance is to be given at Lippitt Hall on Saturday, March 19, at 8 o'clock. This year Pan-Hellenic has grown up, dropped long skirts, so to speak. It is to be formal, taking a place on the social calendar beside the Soph Hop and the Mill Ball. We are not going to offer you "thick military" or a "hop" even, but something that will transport you away from the commonplace. We are going to try to do this with a "beau geste" and as Ben Bernie would so modestly say, "We hope you like it—"

Catherine Regan is general chairman of the coming dance while the committees are: Doris Cumming, decorations; Mary Clancy, floor and decorations; Marion Coggeshall, orchestra; Sigrid Carlson, patrons and refreshments; and Florence Allen, programs.

The patrons are to be: President and Mrs. Bressler, Dr. and Mrs. Odland and Captain and Mrs. Freeman.

## R. I. S. C. Players At Pawtucket

Present 'Fanchon' at Elks' Benefit in High School

"Fanchon" was produced Wednesday evening, March 9, at the Pawtucket Senior High Auditorium by the R. I. State College Players, and enthusiastically received by a large and appreciative audience. This presentation of the French drama was given by request and under the auspices of Pawtucket Lodge, No. 320, B. P. O. E. The proceeds were donated to the Elks' Charity Relief Work. Dr. Edward C. Morin was chairman of the committee in charge. In addition to the warm reception given the Players, the Elks entertained after the performance in a royal fashion.

The Players left the campus at 3 p. m. leaving by bus, and arriving in Pawtucket at 5 p. m. The stage crew had the sets all in readiness and the waits between acts were short and reflected credit to their workmanship and ability. Jack Savran proved himself a capable stage manager. George McCahey handled the lighting which was one of the features of the show. Much comment and praise was given the woodland scene which was referred to by an old theatrical man, as one of the finest setups he had seen. This was no mean praise from a man 24 years in the profession. Antony Colucci comes in for his share in the scenic effects.

Paul Piccirillo and Joseph Di Luca directed the musical program which received special notice in the Pawtucket Times.

To quote from the Times, "the play revealed several outstanding interpreters of character, principally, Mary Besse as the ragged, despised Fanchon, Matilda Litwin as Mother Fadet, Florence Howe (Continued on Page 2)

## Your Beacon!

This is the first Beacon that the new board has attempted to issue. If there are errors please bear with us, as we are novices in this field of endeavor. Since the first issue of this publication, mistakes have been made by the various editors, and it would be ridiculous to promise that we will not make mistakes. There are no definite set of rules stating one must do so and so in order to publish a good paper. In order to put out a good paper one must appeal to the tastes of the readers, and this is an almost impossible task. Some readers want news. This presents a most difficult task since it is almost impossible to get news to the readers of The Beacon before the daily papers print it. The Beacon is set up Monday night; the printer receives the material Tuesday afternoon, and Thursday night the papers are distributed to the students on the campus. The daily papers get the news Tuesday afternoon; that same night it is read by all the students in the college. In order to cut down the so-called stale news, former editors attempted to use feature material; this move ended in a complete failure. It was claimed that The Beacon became childish and puerile. The question now arises what is the best course to take. It is felt that the news should be cut down to a minimum, since it is stale, and decisively concentrate on feature material of high calibre. No attempt will be made to satisfy the individual student but rather the whole student body as a mass.

It has often been said that a school publication is a means by which the student body may "blow off excess steam." This is quite true, and if the paper is used to this advantage the conditions in the college will be greatly improved. It is almost physically impossible for the few students on the board to see all the failings of the college, students, or faculty. In order to carry out this program the assistance of the student body is solicited. It is hoped that the students will contribute, from time to time, various criticisms and articles to The Beacon in order that the college will become an ideal institution. The Beacon certainly wants to publish student opinion because that is the fundamental purpose of the paper. There are certain rules that must be adhered to if an article is to be submitted to The Beacon for publication.

The Beacon assumes no responsibility for articles written by others than the members of The Beacon.

All articles must be signed by the writer, and if the writer wishes to have his name withheld from the public, The Beacon will do so.

The Beacon reserves the right to change all articles that are improperly written.

It is hoped that the students, faculty and friends of the college will cooperate in this measure and help make The Beacon the voice of the students and not of a limited few. With these things in mind The Beacon will be your Beacon and not the Editors' Beacon. It is now yours and what it will be depends upon the interest which you will show during the coming year.

## Prejudices!

It seems that every week these assembly speakers are better—is it the choice of personages or is it the intelligence of the audience that is just beginning to appreciate these erstwhile dissertations?

Last Monday, Dr. Stoddard surely "hit a sore spot"—some folks came out of chapel with rather uneasy consciences—others with a determination to listen and observe, to learn and absorb! Perhaps it was the downright facts of the case that made us concentrate our attention so fully—or again, perhaps it was just the sincere, unconscious appeal which the speaker sent out to us.

Down here in Kingston, everyone seems to step into

what is locally termed "the Kingston rut." It takes mighty fine will power, and a good deal of man to get out of this so-called "comfy situation." When things go along smoothly, most of us just "let them go as they may"—but what chance has progress here?

Some professor stated that he expected a group of students this week who would accept nothing, but would search for the fundamentals of things, for "facts are scarcest raw material—we must dig deep for them—when we find them we neither recognize them nor know how to use them."

That is part of the difficulty—and the most tragic—for we humans cannot, we do not see beyond our own horizon; we dare not look from our own minute thoughts into those of others—we question the opinions of our fellow-men and rejoice in our own. We gather together our little bundle of facts, and we clutch them and hold them close—but, how about the next-door neighbor's—only abhorred too quickly! We find knowledge and then we are lost for a method, a way to make use of it! Why are we so impatient with other men's ideas and ideals?

Prejudice—it even invades our little campus! How many of us crawl into our own house and fail to see across to the next one? Of what benefit is all our knowledge?

Those idle gossipers—the personalities with whom we go to classes every day, the "pals" that sit across from us in labs—why must they talk? Why must they choose "the absentee" on which to pin their disgust, their jealousy, their ill-humor? And to think that all this comes from would-be students! Are they fulfilling the wishes of their fathers—are they fair to themselves? After all, all these things are merely types or kinds of prejudices—they all originate from the same source. They are all due to the fact that one selfish individual is too lazy or too self-centered to "pay the price" to see how his fellow men are coming along or he is just too disinterested to try to understand! Prejudice!

## Transition

For years the curriculum of this college has changed very little; everything has been at a complete standstill. The same, poorly arranged, courses were taught year after year without any thought of changing social and economic conditions. New inventions, new ideas, and new views on life were being formed, but the educational system at Rhode Island State College remained comparatively stagnant.

With the coming of President Bressler, the college became imbued with a new life. Everything seems to have changed; his latest innovation is the complete revision of courses to meet the needs of the students of this present generation, and to compete with other institutions of higher learning. This is one of the greatest changes in the history of this institution. The different courses were concentrated under a few deans so that the maximum efficiency may be obtained. The School of Science and Business Administration was incorporated and thereby two courses were put under one dean instead of two as in previous years. There was also formed a School of Agriculture, Engineering and of Home Economics. In the past students, who were contemplating entering medical school, found it necessary to petition the faculty and elect new courses in order to meet the necessary requirements for admission to Grade A medical schools. President Bressler, realizing this failing in our educational system, recommended the installation of a thorough pre-medical course which will have all the necessary requirements for any medical college in the country. The Chemical Option in the General Science course has been altered so that the chemists may have a more thorough understanding of the chemical science. One outstanding failing in this course is the absence of adequate mathematical courses. Advanced algebra and calculus will be offered in the new curriculum. Mathematics has been the stumbling stone that the chemists have met in the past. Many Rhode Island men were refused admission to graduate schools because of the lack of these courses. Another completely new course is the Physical Training course. This course has been designed to give a thorough physical training course to all students who plan to continue in this line after graduation.

Since the inauguration of President Bressler as president of Rhode Island State College, the conditions here have changed by leaps and bounds. There is no doubt as to the future of the college. Looking ahead, we see a most successful and promising future on "the other side of the hill."

## Return to Classic

(With apologies to F. S. F.)

The January lanes, drifted with snow, white in the fogs—that blow up toward the moon, sicken my heart with wishing for weird fanes reluctant to endure a savage noon; ever reluctant and forever dammed, in despite of ages past.

October wanes—wild apples on a hill-side shaking gently in the hunting breeze . . . a fox skulks furtive by the ruined mill; the leafy water running soon shall freeze; memories are meaningless and bereft, like some god whose name is lost.

The twilight falls and passes from the plain—the pale, proud plain, the smoking plain of fools; the shattered armies resting from their duels watch sullenly the winging marsh-bound crane; the bird of death in an Etruscan myth, outside of pain and desire. . . .

—K. R. R.

## Delta Zeta Has Formal Dance

Streams of sweet music, shaded lights, cushioned feet, and happy laughter introduced Delta Zeta's formal house opening dance at their new house, Saturday, March twelfth. The patrons and patronesses, who were entertained in the formal reception room, were Mr. and Mrs. Elsie Burdick, Mr. and Mrs. Lorenzo P. Kinney, Dr. and Mrs. Harold W. Browning, Dr. and Mrs. Basil E. Gilbert, Dr. and Mrs. Theodore E. Odland, Miss Mabel De Witt Eldred, Dr. and Mrs. Andrew J. Newman, Mr. Robert Rockafellow, and Miss Mabel E. Dickson.

Miss Lillian Chaput was general chairman. Those on her committee were Marion Bishop, favors; Leola Harris, refreshments; Marion Coggeshall, orchestra, and Ruth Newman, program.

## R. I. S. C. PLAYERS AT PAWTUCKET

(Continued from Page 1)

Manning as Mother Barbano and J. Melvin Koppe. The Times also makes mention of the festival group, Albert O'Neil, David Espinoza and Helen McNamee were added to the cast since its Kingston appearance together with several musical numbers which were received with applause. O'Neil sang "Toujours, L'Amour, Toujours" in his best style. Miss McNamee and Espinoza scored quite a hit as evidenced by the applause.

After the performance the troupe embarked for Wightman's Dinner, there to be the guests of the Elks. Dr. Morin introduced Joseph L. Martin, exalted ruler, who welcomed the Players and commended their work. Dr. Morin then introduced Dr. Raymond G. Bressler, the guest of honor. In doing this Dr. Morin congratulated him in two-fold manner, March 9th being the birthday of Dr. Bressler. Mrs. Roy Rawlings, director of the Players, was the next speaker. After a hearty repast, the company broke up with the singing of "Alma Mater" and the guests and troupe wended their ways homeward.

## Extra! Editor Is All Shot

The following is a psychological test that has just been devised by a joint meeting of the Amalgamated Coffin Co. and the Independent Order of Grave Diggers. Try it on your roommate. We guarantee 100% results, or your money will be collected cheerfully.

Read the following to your best friend, and if he knows what you are saying, he is not the Nott that shot the shot that shot Nott, but the Nott that shot not, Anyway, read on.

A duel was lately fought by Alexander Shott and John S. Nott. Nott was shot and Shott was not. In this case it was better to be Shott than Nott. There was rumor that Nott was not shot, but Shott avows that he was not shot which proves either that the shot shot at Nott was not shot, or that Nott was shot notwithstanding.

It may be made to appear on trial that the shot Shott shot Nott, or, as accidents with firearms are frequent, it may be possible that the Shott shot shot Shott himself when the whole affair would resolve itself into its original element, and Shott would be shot and Nott would be not.

But kind reader, if you are not all shot, let me explain the above situation clearly: the shot Shott shot shot, not Shott, but Nott.

Lovely day for a funeral, isn't it?

## Freshmen Subdue Brown Frosh, 39-26

### Ramlets Come From Behind to Win; Federico and Speechman Star

In a closely fought preliminary game the Varsity came the Rhode Island State Frosh, 39-26. The Ramlets were out to avenge their defeat in the first quarter, but at the end of the first quarter the Brown Frosh led 10-9, but at the end of the second quarter the Ramlets had come back to lead 16-13. From then on the Rhode Frosh had it all their own way. At the end of the third quarter the score stood at 39-26 for the Rhode Island team. Federico was the big star in the Rhode attack, tallying 14 points. Floren, with seven points and Tucker with eight points, were high scorers for the Ramlets.

The summary:

## SCHOOL OF SCIENCE AND BUSINESS ADMINISTRATION Curriculum in Biological Science Freshman

First Term	
English 1	3
Chemistry 1	3
Botany 1	3
Mathematics 17	3
French or German	3
Military Science and Tactics	3
P. T.	1
Orientation	1
Second Term	
English 2	3
Chemistry 2	3
Botany 2	3
Mathematics 17	3
French or German	3
Military Science and Tactics	3
P. T.	1
Orientation 1	1

## Sophomore

First Term	
English 3	3
Physics 1	3
Chemistry 4	3
Zoology 10	3
French or German	3
Military Science and Tactics	3
P. T.	1
Second Term	
History 3	3
Physics 1	3
Chemistry 5	3
Zoology 10	3
French or German	3
Military Science and Tactics	3
P. T.	1

## Junior

First Term	
Economics 21	3
Bacteriology 1a	3
Botany 5	3
Zoology 1	3
Elective	3
Second Term	
English 4	3
Zoology 1	3
Bacteriology 2	3
Botany 6	3
Elective	3

## Senior

First Term	
General Psychology	3
Agronomy 11	3
Zoology 8	3
Botany 9	3
Elective	6
Second Term	
Economics 22	3
Zoology 8	3
Botany 8	3
Biological Elective	3
Elective	6

## Curriculum in Chemistry

First Term	
English 1	3
Chem. 1	4
Math. 17	3
Botany 1	3
German or French	3
R. O. T. C.	1
P. T.	1
Orientation	1
Second Term	
English 2	3
Chem. 2	4
Botany 1	3
Math. 17	3
German or French	3
R. O. T. C.	1
P. T.	1
Orientation	1

## Sophomore

First Term	
English 3	3
Physics 1	3
Chem. 3	4
Zoology 10	3
German or French	3
R. O. T. C.	1
P. T.	1
Second Term	
Physics 1	3
Chem. 7	4
Zoology 10	3
German or French	3
R. O. T. C.	1
P. T.	1

## Junior

First Term	
Organic Chemistry	3
Economics 21	3
Math. Calculus	3
Chem. Elective	6
Elective	18
Second Term	
Organic Chemistry	3
English 4	3
Math. Calculus	6
Elective	18

## Senior

First Term	
Physical Chemistry	4
Industrial Chemistry	3
Chem. Elective	3
Elective	6
Second Term	
Physical Chemistry	4
Industrial Chemistry	3
Chem. Elective	3
Elective	6

## Curriculum in Physical Education Freshman

First Term	
Botany 1	1-2
Chem. 1	3-1
English 1	3
Health	3
Math.	3
Orientation	1
P. T.	1
R.O.T.C.	1
Second Term	
Botany 1	1-2
Chem. 2	3-1
English 31	3
School Hygiene	3
Math.	3
Orientation	1
P. T.	1
R.O.T.C.	1

## Sophomore

First Term	
Chem. 4	2-1
English 5	3
Physical Ed. 3	1-1
Physical Ed.	3
R.O.T.C.	1
Zoology 10	2-1
Elective	3
Second Term	
Chem. 10	1-2
English 2	3
Physical Ed. 4	1-1
Physical Ed.	3
R.O.T.C.	1
Zoology 10	2-1

\*Includes P. T. common to all Sophomore courses.

## The Pre-Medical Curriculum Freshman

First Term	
English 1	3
Chem. --General	4
Botany 1	3
Math. 17	3
French or German	3
Military Science & Tactics	3
P. T.	1
Orientation	1
Second Term	
English 2	3
Chem. 2--General	4
Botany 1	3
Math. 17	3
French or German	3
Military Science & Tactics	3
P. T.	1
Orientation	1

## Sophomore

First Term	
English 3	3
Physics 1a	4
Chem. 4--Organic	3
Zoology 10--Vertebrate	3
French or German	3
Military Science & Tactics	3
P. T.	1
Orientation	1

## Junior

First Semester	
English XIX	3
Economics III. Accounting	2 (2)

## Wheaton College and Grinnell College have both banned the Chicago Daily Tribune from their libraries because of its stand against prohibition.

Sigma is getting profile with its several little Oscars running around. This is a practical home management problem.

## Students electing a language not offering an admission must take four semesters to meet the language requirement.

Wheaton College and Grinnell College have both banned the Chicago Daily Tribune from their libraries because of its stand against prohibition.

## Sigma is getting profile with its several little Oscars running around. This is a practical home management problem.

Sigma is getting profile with its several little Oscars running around. This is a practical home management problem.

## R. I. DEBATERS LOSE TO CONN.

(Continued from Page 1)

Harry J. Prechluda, Prechluda, substituting in place of Fine, was under a handicap as he did not have sufficient time to become familiar with the question. Nevertheless, he filled the position with such a degree of success as to call forth much favorable criticism from the Conn. debating coach.

The third speaker representing our team was Melvin J. Koppe. This was Koppe's first attempt at inter-collegiate debating, and proved to be one of the outstanding features of the debate. Mr. Koppe pointed out that the war debts can be paid in two ways. First, by a system of three cornered trade. That is the Allies export manufactured goods to the tropics, who in return export raw materials to the U. S. The second method presented was the transferring of the governmental war loans to private individuals.

These last two methods of paying the allied war debts were presented in such a fine debating manner that the Conn. debaters were

at a loss how to refute these arguments. Koppe's ability in debating will be worth noting in future debates.

Even though the decision against Rhode Island was three to nothing, our debaters felt that they had won a moral victory over our aged rivals—Connecticut Aggies.

### Notes

The Freshman representative for the nominating committee of the Women's Student Government, was elected at a meeting of the Freshman women last Monday afternoon. Miss Lenette Gossin was chosen for the position, which will be held for the 1932 term. Other nominees were the Misses Meredith Scattergood and Ethel Johnston.

The Women's Debating team to debate Maine down here in Kingston, Mar. 22, were chosen the other night. They include Helen Holmes, Barbara Masterson, Ruth Nelen and Winifred Frances. Our co-eds will uphold the negative of the question: Resolved, That the United States should Recognize Russia.

## USES OF DELTA ZETA DISCUSSED

(Continued from Page 1)

organization center points definitely in this direction."

Miss Helen Holmes, president of the Women's Debating Society, stated: "I should like to endorse heartily the plan proposed by the Beacon for the use of the old Delta Zeta Lodge. The lodge has long been in need of the use of a room for extra curricular meetings and it seems a logical thing to do with the lodge."

The only student interviewed not giving a similar answer to those above, was Miss Ruth Barrows, vice president of the Student Government. She stated: "I am undecided as to any definite statement concerning the use of the Delta Zeta Lodge."

## Freshman Banquet

(Continued from Page 1)

Dean Weidin, Miss Lees, who has shown a great interest in the Freshman class, and Coaches Keane and Tootell.

In conclusion the committee has arranged for a dance to be held in Lippitt Hall after the banquet.

Patrons and patronesses are President and Mrs. Browley, Dean and Mrs. Barlow, Dean and Mrs. Weidin, Mr. and Mrs. Keane, Mr. and Mrs. F. Dehnert Tootell, and Miss Lees.

The committee in charge of the affair is composed of "Bud" Fisher, chairman; Arlene Wooden, Evelyn Vincent, Ruth McCoy, Vera Rock, "Vin" Cannon, "Tom" Dring, "Pepper" Martin, and Francis Cascardilli.

# "Choosey" People like the way they TASTE..

IT'S just what you'd expect. People who enjoy the good things of life... are constantly looking for something better to eat and drink...and smoke.

In cigarettes this *better taste* can come only from finer ingredients. Chesterfields are more satisfying to the cultivated palate. For one thing, there's never any attempt to skimp on Turkish leaf.

These richly flavored Turkish tobaccos are added with a generous hand.

In fact Chesterfield's new way of mingling tobacco flavors and aromas is really the equivalent of an entirely *new kind* of tobacco... one that combines the best qualities of Turkish and fine Domestic leaf.

Perhaps you've noticed too, that the paper in Chesterfields is whiter...purer. It burns without taste or odor.

Smoke Chesterfields whenever you like...They're mild and pure. They'll never tire you as an over-sweetened cigarette might easily do. Light up and see for yourself. They satisfy!

●Listen in...Hear the Chesterfield Radio Program. Nat Shilkret's brilliant orchestra and Alex Gray, popular baritone. Every night, except Sunday... Columbia Broadcasting System... 10:30 E. S. T.

© 1932, LIGGETT &amp; MYERS TOBACCO CO.

THEY'RE Milder

THEY'RE PURE • THEY TASTE BETTER • They Satisfy
